Parr, Jeweler.
This Week—Friday, on ac-
count of Holiday.

GREEN STAMPS ON ALL SALES

M. D. Herrington of San Pedro says that most stores cut out giving S. & H. Green Stamps when selling merchandise at reduced prices, but this is not the method adapted during his reduction sale, which is going on at present. Every purchase made in his store will be accompanied by Green Stamps—this item alone being a great saving to his customers.—Adv.

**FAMILY REUNION ON
THANKSGIVING DAY**

You may have enjoyed your Thanksgiving dinner in your home, or at the cafe or received your corn-fed turkey at the market and your pies at the delicatessen store, yet there is no reason why the Thanksgiving spirit should be lost or betrayed.

We should have our family reunions wherever that is possible, and we should certainly remember to extend our Thanksgiving cheer to some poor soul who may have few blessings for which to give thanks, and be saddened with recollections of happier days gone by.

For any of us to give thanks that we are not alone among strangers and out of luck is to play the self-sufficient publican. Let us not so bare our selfish hearts to the eyes of the Creator.

If those who are favorably situated will but be charitable to those whom fate treats less kindly, they will verify the simple truth that the surest way to make one's self happy is to give happiness to others.

Give something besides thanks Thursday. Give some service which may earn your neighbor thanks.

NEW GROCERY OPEN

Wm. Willis has opened a grocery store and oil station on North Narbonne Avenue and is developing a good trade in that section. He is making a specialty of home-made tamales.

**HARBOR CITY PLANNING A
COMMUNITY XMAS TREE**

Harbor City is planning a big Community Christmas tree and program which will be staged in the open and made of interest to every one present at the exercises. The chamber of commerce will be represented by Messrs. A. E. Chae, H. C. Higgs and A. E. Aspttle, the Retailers Association will be represented by F. G. Hodges, Mrs. W. P. Burgess and Mrs. H. L. Wilson. Harbor City M. E. church, Harbor City Sunday school, the Ladies Aid and the Parent Teacher Association, will all take part in an endeavor to make this one of the biggest and best Christmas entertainments ever held in Harbor City.

The Community Christmas tree need not interfere with any home Christmas tree or the usual Christmas entertainment in the church.

Community singing and Community Christmas tree makes the finest entertainments that can be had anywhere and tend to arouse a co-operative community spirit which can be reached in no other way. Harbor City Chamber of Commerce determined last year that 1919 would be the last year in Harbor City without a community tree and now everybody seems to have the spirit, and the affair will certainly be a great success.

Torrance Enterprise—\$2.00 a year.

**NEED OF BOY SCOUTS
IN EVERY CITY**

What can we do to help the Boy Scout movement? How many of us have boys who are not members of this band, though old enough to belong, we can have them join. That will do some good to the movement and a great deal of good for the boy.

There may be just a bit of prejudice against the Boy Scout movement chiefly among parents who do not understand the movement—and more frequently who do not understand boys.

Every mother should wish her son to develop into a clean, honest, straightforward youth, physically stalwart, mentally alert, morally fine-garined. Association with the right kind of boys will do more than the text books of school or the corrections at home or the lessons at Sunday school.

Boys of a certain age will play in groups, and in their world of their own imagination will duplicate in miniature the progress of the human race from barbarism to civilization, from the primitive life of the caveman to the complex modernity of kodaks and wireless telegraphy.

The main idea of the Boy Scout movement is to educate the boys along the right lines in the play-

spells, teaching them the practical work of making campfires, pitching tents, doing outdoor cooking, scaling heights, swimming, building boats and bridges, studying the animal and plant life of forest and field, learning the mysteries of nature and practicing the methods of rendering first aid to those who are injured by accident.

Boy Scouts work willingly under the guidance and direction of an older leader who knows these things. They are apt and eager to learn. All any boy needs is to have someone direct his energies—which he has a superabundance—along lines that are congenial to his tastes.

In the United States today about 4,000,000 boys are enrolled in this movement, which is ten years old. But there are 10,000,000 boys growing up who would be immensely benefited by the training and discipline which they would receive and who left to themselves are too often likely to develop into mischievous nuisances in their neighborhoods, graduating into gangs of young toughs and hoodlums, who pass from small evils to greater ones until they become fit for the reform school.

Scouting is democratic in that it knows no class or creed. It speaks the universal language of boyhood. It is the melting pot of youth in preparation for good citizenship.

Boy Scouts learn to love their God and their country's flag and will make the kind of Americans that should populate this land.
